

## DELTA WAVE'S IRIDIUM 9555 FIELD DEPLOYMENT UNIT (FDU)

Use your 9555 Iridium satellite phone indoors and outdoors and take it with you. Just dock your phone in our kit and you can use satellite communications with standard analog phone sets or with the included privacy handset.. The unit is deployable within minutes. Rugged and secure locking restraint secures 9555 in cradle in any environment.

Delta Wave's Iridium 9555 Field Deployment Unit (FDU) is a turnkey package which incorporates the ASE DK050 Docking Station along with all components necessary for quick and easy deployment. All items are contained in a Pelican 1450 case for ease of transport. The versatile 9555 FDU is ideal for field operations, emergency preparedness, vessel installation, and anywhere else where rapid deployment is necessary. Bulkheaded connectors offer data connectivity, an RJ 11 port for two-wire telephone/cordless phone set or PBX connectivity, power input, as well as coax connectivity to the external omnidirectional antenna.
