

DELTA WAVE'S INMARSAT FB150/250 FLYAWAY KIT

Delta Wave's Inmarsat FB150/250 Flyaway kit is a turnkey package which incorporates either the Skipper or Thrane FleetBroadband 150 and 250 products, along with all components necessary for quick and easy deployment. All items are contained in a Pelican 1640 case with custom high density foam insert for ease of transport. It includes the power supply and antenna mounting bracket. The versatile FB150/250 Flyaway kit is ideal for field operations, marine applications, and anywhere else where rapid deployment is necessary.

The FB150 offers 150/150kbps bandwidth along with simultaneous voice communications. FB250 offers 284/284kbps connectivity, along with additional connectivity features.

It includes all that is required for deployment, including power supply, antenna mounting bracket.

Delta Wave also offers these kits as a rental package – Rentals kitted with FB150 units are \$30.00 per day with low usage rates. Please call for details.
